

The Capital Corvette Club has a full calendar of activities; some formal, others less formal. These include Corvette road trips; both local and distant, local cruise nights, car shows, social outings, drag racing events, participation in some of the top shows in the hobby like Corvettes at Carlisle, the Woodward Dream Cruise and more. You can choose how much or how little you wish to participate.

The Capital Corvette Club (CCC) was founded in 1975 by individuals who wanted to exchange ideas and to participate in activities directly related to the Corvette. Since that time the Club has grown and matured. Members have joined the Capital Corvette Club from Ottawa area and as far away as Cornwall, Brockville, Kingston, Toronto, Montreal and even New York. The CCC is known to be a friendly group of Corvette enthusiasts with both men and women active in the Club. On average the club has anywhere from 65 to 80 members a year.

The Capital Corvette Club is a registered not for profit corporation with full legal standing.

CCC is a sponsor to the National Corvette Museum in Bowling Green, Kentucky with the purchase of a museum brick.

What we do -

The Capital Corvette Club has a full calendar of activities, some formal, some less formal. These include Corvette cruises both local and distant, cruise nights, car shows, parades, social outings, Wing Nights, Corvettes at Carlisle, and the Wasaga Beach Weekend, etc. Watch for us at different events - you know we are club members by the presence of club window banners on our dashboards. If you have a Corvette, come park with the Corvettes. You do not need to be a CCC member, just come by and JOIN US!

Every year the CCC Executive selects a few key events for its membership to attend on-mass, such as: the Myers GM Car Show, Brockville Car Show in August, and of course Corvettes at Carlisle. Capital Corvette Club members are all encouraged to try to attend these events.

The CCC boasts a couple of experienced NCRS (National Corvette Restorers Society) folks within the membership who are not only involved in the certification of their own cars but act as judges at NCRS meets.

What we offer -

Great networking - members share valuable advice gained by their experience of owning Corvettes. They usually know the answers to and/or know someone who has had similar problems. There is a full range of support to our members and many club members have assisted others and offered tips on engine work, brakes, bearings, air conditioning, painting, etc

Club sponsors offer discounted rates to Club members Club meetings are held throughout the winter where we sometimes welcome guest speakers, there are also several "social events" throughout the year in all 4 seasons.

A Club website with a 'Members Only' section is available to keep members up-to-date on the news and events in the club..

CCC members receive regular email correspondence to remind them of upcoming activities.

Members can participate as much or as little as they like throughout the year - their choice.

Whether you have just taken delivery of your new Corvette at the dealership, are restoring an old classic Vette or own one somewhere in between - we would welcome you to our club. While our club typically numbers 65 - 80 members in a given year, there are about 25 "hard core" members that support many of the events. About half are new members with lots of enthusiasm and interest while the other half are long standing members within the club with plenty of knowledge. It's a good mix for potential new members.

Annual membership dues are \$110.00 year. The majority of the membership fee goes towards club costs such as social events, website maintenance, club show displays, etc. The club treasurer provides members with regular financial statements.

Upon joining you are issued with a membership card, a dashboard banner and a club window decal for your car.

Club apparel such as golf shirts, tee shirts and jackets are available at special club prices to members.
